Mariquita Joy, RN MPH CCM

- CPD Certified AI Healthcare Consultant
- Nurse Case Manager
- Founder, Cayenne & Make It Home AI platforms
- Voice forward technologies in health and safety
- Author of three books on Ai

3

After the Current Stopped
The emergency ended. The injury did not.

4

What could have reached him before
electricity did?

5

Safety in a Binder
Available does not mean accessible.

6

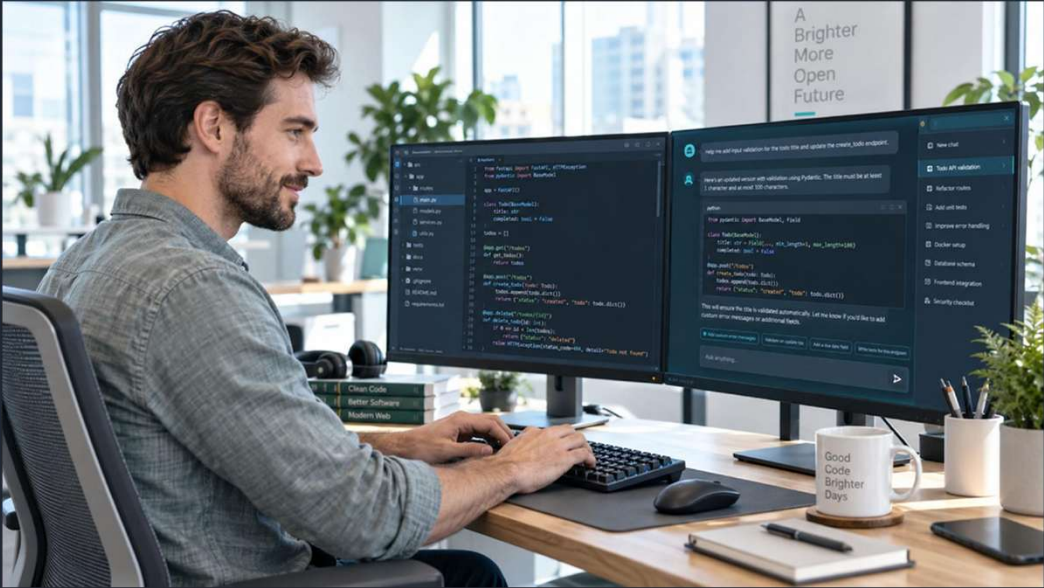

Shut off the power first!

No entiendo.

Lost in Translation

Language should never cost a life.

7

AI Behind a Desk

Built for offices. Not job sites.

8

The Wrong Interface
Gloves on. Noise everywhere. No keyboard.

9

What if safety could listen, speak, and
respond?

10

A Nurse Started Building
A patient was hurt. She built the fix.

11

Daisy Opened the Door
She found it. She submitted it. I got in.

12

Meet Daniel

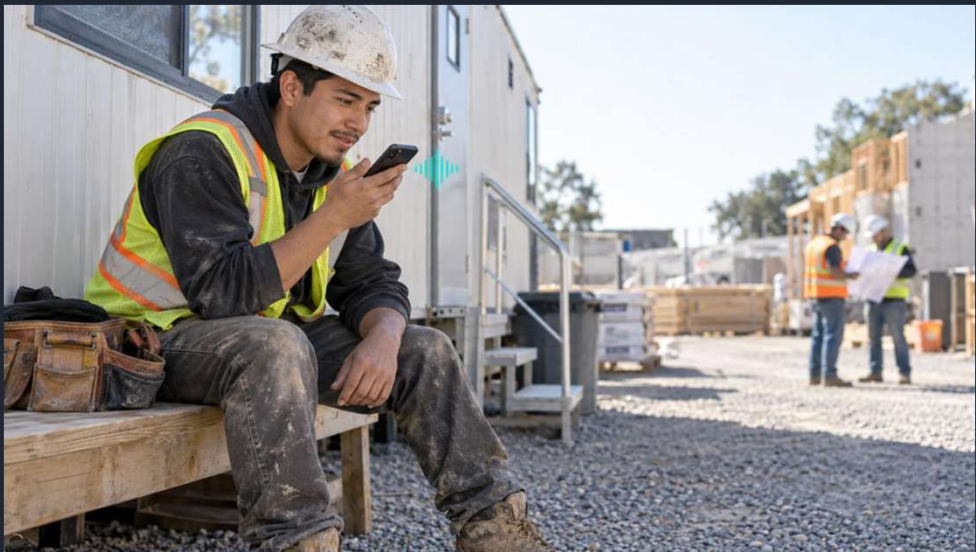

A voice-first safety and job coach

13

Fear silences the questions that save lives.

14

A Private Place to Ask

15

Help Before Harm

16

Answer the question before they guess.

17

When Seconds Matter
The right answer, right when it's needed.

18

Quick Actions Make a Difference

Preserve.
Protect.
Get Help.

- ASSESS THE SITUATION
- PROVIDE FIRST AID
- PRESERVE THE PART
- GET EMERGENCY CARE

Training Today. Safer Tomorrows.
